

**American Health Association
April 18-21, 2005 Chicago, IL**

Session Ranking

RANK	SESSION CODE AND TITLE	AVG.	EVALUATIONS
1	(331) Mild Traumatic Brain Injury: Shattering the Myth	4.94	174
2	(349) The Mind-Body Challenge: Treatment of Problematic Behavior in Huntington Disease	4.94	217
3	(352) Dysfunction in Multiple Sclerosis and Other Neurologic Disease: Silently Disrupting Life's Fabric	4.92	239
4	(354) Deep Brain Stimulation for Medically Intractable Tourette Syndrome: A Case Report	4.92	338
5	(001) Correlative Brain Anatomy and Dissection	4.91	136
6	(345) Determination of Death by Neurological Criteria	4.91	120
7	(337) Management of Craniovertebral Junction Abnormalities via the Transoral-Transpharyngeal Approach	4.90	250
8	(SFG2) Geriatrics	4.90	109
9	(103) Nurses Caring for Nurses: Changing the Culture of Nursing	4.88	437
10	(314) Residents of the White House Who Have Been a Neuroscience Patient	4.87	191
11	(347) Updates in the Diagnosis and Treatment of Multiple Sclerosis	4.87	149
12	(003) Gizmos and Gadgets: Multimodality Monitoring in Neuro Critical Care	4.87	268
13	(323) Parkinson's Disease: Deep Brain Stimulation in a Community Hospital	4.86	358
14	(SFG5) Neuro-oncology	4.86	321
15	(322) Cervical Spondylotic Myelopathy: Presentation, Pathology, Treatment, and Nursing Challenges	4.86	132
16	(338) Palliative Care in Parkinson's Disease	4.85	246
17	(503) Treating Intracerebral Hemorrhage: New Options for Control of Excessive Bleeding	4.84	619
18	(327) Management of a Patient with a Central Spinal Cord Syndrome	4.84	185
19	(101) The Art and Vision of Neuroscience Nursing	4.83	585
20	(310) Continuous EEG Monitoring in the Neuroscience ICU	4.83	101
21	(332) Complications of Lumbar Spine Surgery: Nursing Assessment and Intervention	4.83	178
22	(102) Our Modern Experience with Traumatic Brain Injury: Basic Science and Clinical Successes, Failures, and New Opportunities	4.82	497
23	(506) Factors Influencing Antiepileptic Drug (AED) Selection	4.82	322
24	(318) An Innovative Intervention to Support Family Caregivers of Brain Tumor Patients	4.82	181
25	(350) Neuroimaging the Pediatric Patient	4.82	376
26	(334) Antithrombin, Fibrinolytic, and Antiplatelet Therapies in Acute Ischemic Stroke: Current Trends in Practice and Research	4.81	174
27	(502) Epilepsy, Pregnancy, and Antiepileptic Drugs	4.81	356
28	(355) Bad to the Bone: Radiological Review of Sinal Abnormalities	4.81	118
29	(324) Follow the Yellow Brick Road to JCAHO Primary Stroke Center Certification: Lessons Learned from an Early Adopter Certified Center	4.80	104
30	(342) Latest Developments on Stroke and Spine Rehabilitation	4.79	106
31	(335) Coma Assessment: Unraveling the Mystery	4.78	158
32	(353) Update: Creutzfeldt-Jakob Disease, Bovine Spongiform Encephalopathy and Variant Creutzfeldt-Jakob Disease	4.78	143
33	(002) Neuropharmacology 2005	4.77	319
